

# PLANETARY HEALTH

# Workshop

Wednesday 20 July 2022

# Welcome and introduction

# Housekeeping

---

 The keynote presentation will be **recorded** and will be publicly available after the event

 To reduce background noises, **please mute yourself** when not asking a question or making a comment

 To ask a question or make a comment you can **use the 'raise hand' function**, physically wave at the presenter, or pop your thoughts into the Zoom chat box

 A **comfort break** is scheduled for half-way through

# Keynote presentation

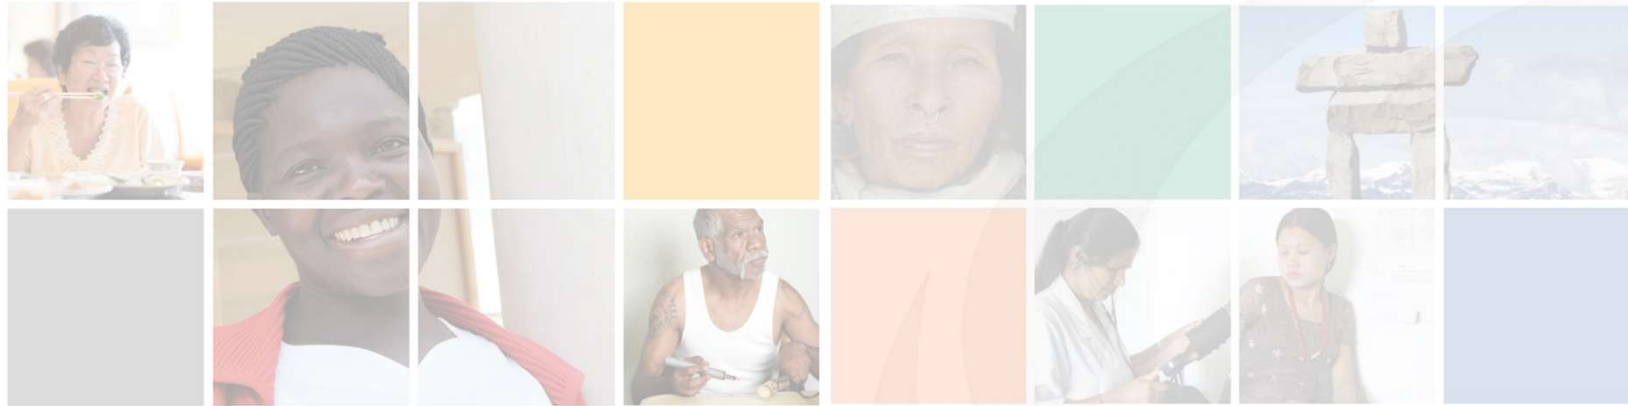

Renzo Guinto

Nicole Redvers

# Comfort break

# Implementation in the Anthropocene era

- How does climate change and/or environmental degradation impact the NCD epidemic where you live?

## Local impacts

- What role could (or should) implementation science have in addressing planetary health?

## Research

- What actions have been, or could be, taken by your team to minimise the environmental impact of your project?

## Your team

# NON-COMMUNICABLE DISEASE PREVENTION IN CITIES

# NCD Prevention in Cities: Call Summary

**Cities:** Urban centres, informal settlements and slums, periurban communities

**Rationale:** Population growth in cities, cities as epicentres of NCD epidemic, climate change

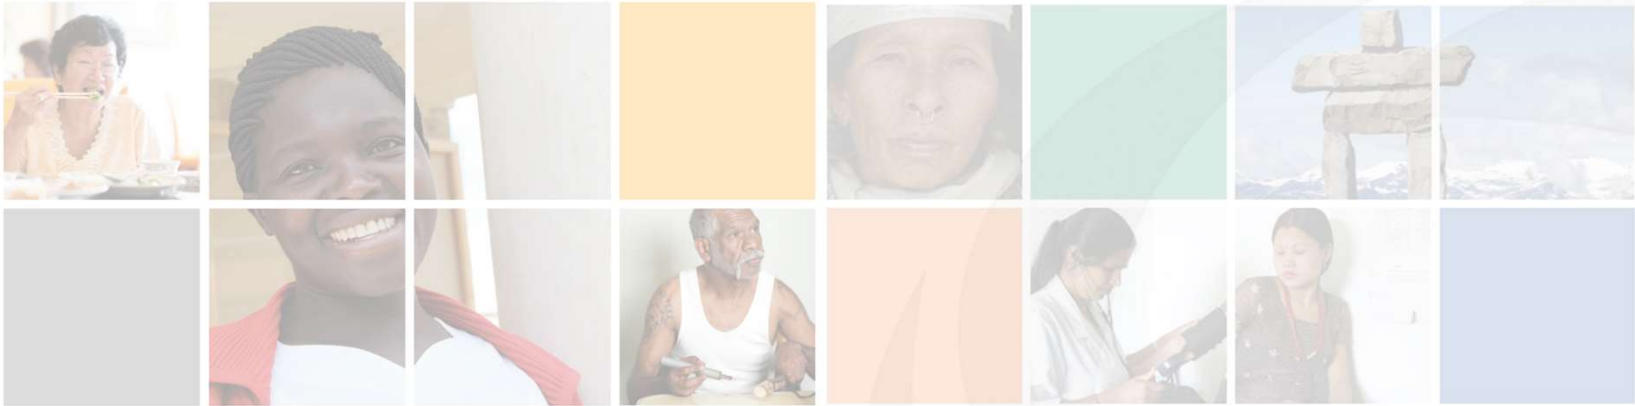

**Type of science:** Implementation research

**Target populations:** People living in LMICs (especially vulnerable groups); Indigenous peoples in HICs

**Call launch date** (*Full call text and webpage, application forms, and participating funding agencies announced*): 30 November 2022

**Letter of intent deadline:** March 2023

# Summary and close

# Upcoming GACD Research Network events

---

- **Implementation Science School** in September/October 2022
  - Applications are open until 25 July 2022
- **Research Programme Workshops** in November 2022
  - We will be asking for annual project updates August to October
- In-person **Annual Scientific Meeting** in London, UK in December 2022
  - Registration information has been circulated via email

# Thank you
