SCUHY

This project is funded by the Horizon 2020 Framework Programme of the European Union.
Scaling Up an integrated care package for diabetes and hypertension for vulnerable people in Cambodia, Slovenia and Belgium

Monika Martens
PhD Candidate, Health Policy Unit
Institute of Tropical Medicine, Antwerp
Project Overview

an introduction to SCUBY
Effective interventions for T2D & HT: Integrated care package (ICP)

- Identification
- Health education
- Treatment
- Self-management
- Collaboration
Scale up in different contexts

- a high-income federated system in Belgium
- a transitional formerly central command health system in Slovenia
- a middle income developing health system in Cambodia
Objectives

1. To analyse the **organisational capacity** to scale-up integrated care for HT and T2D in 3 contexts and to assess contextual barriers and facilitators

2. To **develop and implement roadmaps for a national** scale-up

3. To **evaluate the impact on health outcomes and efficiency of care through** the scale-up of the integrated care package.

4. To **generate lessons across contexts**
Comprehensive scale-up

(based upon Meessen et al, 2017)
1. **Process** evaluation of scale-up

2. **Evaluation of scale-up dimensions**

3. **Impact** evaluation of scaled up integrated care package
SCUBY is a 4-year collaborative research project funded under EC Horizon 2020.

### Design

#### Situation analysis

<table>
<thead>
<tr>
<th>Resource organisations</th>
<th>User organisations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cambodia</td>
<td>Cambodia</td>
</tr>
<tr>
<td>Slovenia</td>
<td>Slovenia</td>
</tr>
<tr>
<td>Belgium</td>
<td>Belgium</td>
</tr>
</tbody>
</table>

#### Scale-up

<table>
<thead>
<tr>
<th>Resource organisations</th>
<th>User organisations</th>
</tr>
</thead>
</table>

#### Evaluation

- Increasing population coverage
Challenges & successes

after almost 1 year SCUBY
Challenges & successes

• **Utilisation of routine data**: quantitative data retrieval is time-consuming
• **Stakeholder engagement** in policy dialogues on the long term and *empowerment of implementers*
• Achieving the objective of **SCALING**

• **Progress** made (in situation analysis)
• **Consortium team**
Quick wins

**Situation analysis** year 1:
- ICP implementation evaluation
- Stakeholder interviews & analysis

Building on existing best practices
Building on existing partnerships, research projects and networks
Engagement with policy makers

in preparation for policy dialogues
Initially via **stakeholder interviews**
Consecutively in **roundtable**

Next steps:
- **Setting up a steering committee**: a small group that organises, oversees, coordinates and implements the policy dialogue
- **Priority-setting & consensus-building**
Questions?

... and feedback?
