Small Group Session to Discuss Research Projects

• 60 minutes for group discussion
• 15 minutes feedback & discussion to plenary group
Tasks in the group

• Choose 1 person to ‘chair’/facilitate the group and 1 person to identify and briefly report back on up to 3 learnings from each group.

• Many of you have submitted an abstract for an implementation project, so each of you will have approximately 10 minutes to present and discuss your project.

• After each presentation (3 min.), discuss the key questions on the following slide (7 min.)
Discuss for each project

• What is the implementation problem or gap that is being addressed? How do you know this?
• What is the Research Question?
• What are the planned implementation strategies? How do you know this?
• How are/will you evaluate whether your strategies are effective? Measures + Study Design?
• Co-Design and Stakeholder Engagement?
WHO Guide – Framework Model

Relationship between implementation and the implementation research cycle

STEP 1
IDENTIFICATION OF APPROPRIATE POLICY OR INTERVENTION

How will appropriate policies and interventions be selected?
How will relevant evidence be identified and assessed?

STEP 2
ADAPTATION AND PIOTING OF POLICY OR INTERVENTION

How will a policy or intervention for a new setting be refined and translated?
How acceptable is the policy or intervention?
What are the barriers and facilitators of implementation?

STEP 3
FULL IMPLEMENTATION OF POLICY OR INTERVENTION

What is the reach of the policy or intervention?
What is the adoption?
How well is it implemented?
What are the moderators of implementation?
How effective is implementation?

STEP 4
SCALE-UP OF POLICY OR INTERVENTION

Is the policy or intervention appropriate for new contexts?
What resources need to be mobilized for scale up and how will these be mobilized?
How will knowledge be translated and exchanged effectively?
